MEMORANDUM FOR THE RECORD

SUBJECT: Conversation with Frank Slatinshek, Chief Counsel,
House Armed Services Committee

Met with Frank Slatinshek, Chief Counsel, House Armed Services Committee, and briefed him on the developments which have taken place with regard to Representative John Moss' (D., Calif.) subpoena of AT&T copies of national security requests and other documents pertaining to national security wiretaps. I told Slatinshek that some consideration was being given to having the Director sign a letter to Representative Moss on this subject, but that this had not been settled at this point. Slatinshek deplored the possibility of this information being provided in response to the subpoena, but said he thought FBI Director Clarence Kelly should co-sign the letter to Representative Moss if it was decided to have the Director sign it. On returning to the office, I learned from Mr. Tony Lapham, General Counsel, it had been decided that the Director would not sign the letter to Representative Moss.
